

Volver

A Modern Restoration of Old Indigenous La Mancha Vineyards

The project of Bodegas Volver was founded in 2004 by Rafael Cañizares, enologist through studies and viticulturist through his family tradition of four generations bound to the vine and wine.

Rafael Canizares seeks to achieve the maximum expression of the Tempranillo grape grown in the environment. This winery is located in the best terroir of La Mancha found in the eastern region of the Denomination of Origin. The soil is the reason that the winery committed themselves to purchasing 228 acres of vineyards with an average age of 40 years. The sandy soils (up to 1 meter in depth) has an underlayment of large river stones.

The pillars of the bodega are based on the repositioning of quality Spanish wines and recovering old indigenous vineyards which, either through low production or lack of generational succession, had been lost.

The most prized asset is the heritage of vines between 30 and 90 years old, indigenous varieties cultivated in a sustainable way with minimal intervention.

La Mancha, Spain- 100% Tempranillo

The grapes for this wine come from vineyards that are at least 50 years old. A deeply colored, full flavored wine with hints of ripe plums, black cherries and sweet exotic spices.
